Hinting is applied to each letter for better screen resolution and an extended kerning table is built into each font. With more than a thousand kerning pairs, the majority of Unifonts typefaces are designed to be used as display and are precisely cut to give you the the legibil-

With more than a thousand kerning pairs, the majority of Unifonts typefaces are designed to be used as display and are precisely cut to give you the the legibility of a text face. You get high quality from a 300 dpi laser printer to a high resolution imagesetter.

Each Unifont typeface is hand-digi-
tized with artisan care, using the
minimum amount of points to
describe the face outline, saving you
precious download time. Hinting is
applied to each letter for better
screen resolution and an extended

With more than a thousand kerning pairs, the majority of Unifonts type-
faces are designed to be used as display and are precisely cut to give you
the legibility of a text face. You get high quality from a 300 dpi laser printer to
a high resolution imagesetter. Compatible with virtually all applications,
Unifonts original typefaces are a must in any desktop publishing environment.
