Hinting is applied to each letter for better screen resolution and an extended kerning table is built into each font. With more than a thou-

Bold Italic 12/13

With more than a thousand kerning pairs, the majority of Unifonts typefaces are designed to be used as display and are precisely cut to give you the legibility of a text face. You get high quality from a 300 dpi laser printer to a high resolution imagesetter.

Compatible with virtually all applications, Unifonts original typefaces are a must in any desktop publishing environment.
